

**Town of Hamilton**  
**Board of Selectmen - Liaison Roles, effective June 2021**

The Board of Selectmen is aware that coordination and cooperation is needed among the town's boards, committees and commissions to: 1) Set and implement consistently, town wide goals and priorities, 2) Identify and anticipate major problems and then work together towards their resolution, 3) Collaborate on long-range planning understanding that long-range capital planning is the authority of the Town Manager and 4) Work cooperatively toward revenue generation.

The liaison often attends meetings to listen, help answer questions and to help prepare for joint meetings with the BoS and other boards. The role can also help the BoS by communicating information among its members. The liaison role should not be interpreted as the only communication path with the BoS but it is the primary means to help with interaction amongst the Town's boards & committees.
