## Spring 2023

### Water Distribution System Flushing (including hydrant exercising & flushing)

The Hamilton Department of Public Works continues to progress with the hydrant flushing maintenance. As a reminder DPW will be flushing hydrants Monday through Thursday evenings from 8:30pm until 1:00am in accordance with the following schedule:

Week 1 – May 1<sup>st</sup> – May 4<sup>th</sup>  
Week 2 – May 8<sup>th</sup> – May 11<sup>th</sup>  
Week 3 – May 15<sup>th</sup> – May 18<sup>rd</sup>

The Department of Public Works will continue to provide updates to the residents of Hamilton as the water flushing work progresses. Updates will be via Hamilton's Website and the Town of Hamilton's social media channels.

As previously advised, due to potentially reversing the general flow pattern in the water distribution system, other areas outside the specific work areas may be affected during this effort. To minimize discolored water in the system, please refrain from utilizing water during the nightly flushing process (showers, laundry, flushing of toilets, etc.). Prior to water use, we recommend residents run their cold water by turning on their outside spigots until the lines run clear as discoloration is likely to occur.
