HW Library, Local History Room**

Agenda

3:00 pm:

1. Call to order and roll call

2. National Grid (Mike McDonald) listening to us also sharing NGrid's decarbonization pathway. That is primary goal. We are trying to understand where their customers are with their decarbonization transition that is required by the State. State policy is expected to come out at the end of the year and is still in play. Mike will also fill us in on that, as it will be impactful.
 - Listening and understanding Hamilton's sustainability or net-zero goals,
 - Providing some context with NGrid's pillars,
 - Outlining a brief overview of current policy and/or legislation initiatives.

3. Adjournment roll call

Items may be heard out of the listed order. The agenda items listed are those items which were reasonably anticipated by the Chair to be discussed at the meeting. Not all items listed on the agenda may in fact be discussed and other items not listed may also be brought up for discussion to the extent permitted by law.
