

Request for Service Cut-Off and Demo Sign-Off

The following information is necessary before National Grid can initiate a service cut-off or can provide a gas utility signoff for a demolition request. Please provide the information listed below. The lead-time required for cut off of gas services is typically 7 weeks (weather permitting) from the time we process it. All disconnects must be cut off at the main per National Grid pipeline safety guidelines. This requires a street opening permit from town, city or state and their permit turnaround time varies including winter moratoriums. The customer will assume the cost of service reconnection, service installation, or any town requirements for restoration. Before service is cut off customer must notify Customer Service at 1-800-732-3400 to have the meter removed. Please note meter removal does not indicate that the service line was cut off. Requests can be emailed to **NESales@nationalgrid.com**.

Home or Business Name/Property Owner (if applicable)_____

Name of Contact_____

Phone Number of Contact_____ Email of Contact_____

Meter Number_____ **Earliest Cut-Off Date** (See Note)_____

(NOTE: Because National Grid must obtain a permit approval for any excavation work required, the requested cutoff may require additional time for permitting or moratoriums.)

Address of demolition and/or service cut-off_____

City/Town_____

Is the service cut-off request due to a demolition? Yes No

Is this the only building located at this address? Yes No

Have you contacted customer service to have your meter removed? Yes No

Are you requesting gas be reconnected in the future? Yes No

Please include a photo or google map of the property where gas will be removed.

Please circle the building on a map if there is more than one building.

By signing below, I certify that I am the owner of the property or that I have been authorized by the owner of the property to act as the owner's agent in requesting this cut-off. If it is determined that I was not, in fact, authorized to request this cut-off, I shall defend, indemnify, and hold National Grid harmless against any costs and liabilities arising out of or related to this cut-off request, including, without limitation, reimbursing National Grid for its costs related to cutting off and reinstating service.
