

HAMILTON 2024/2025 TREE RECYCLING

December 26 – January 20

Patton Park (Rear access lane - off Asbury St.)

As part of our commitment to sustainability, the Town of Hamilton encourages residents to *recycle* your Christmas tree and help create beneficial by-products.

Chipping your tree in Hamilton is **free** and an easy and impactful way to help protect the environment by keeping organic materials out of landfills and turning them into useful, eco-friendly products.

To ensure the recycling process runs smoothly and efficiently, please **remove all ornaments, lights and garland** from your tree. Trees with anything other than bare branches make the chipping process more difficult and could potentially damage Iron Tree's equipment.

Tree chipping services are being generously donated to the Hamilton DPW by Iron Tree Services. Thank you, Iron Tree Services and everyone who participates in this sustainable way of recycling those real Christmas trees.

Your effort helps keep Hamilton eco-friendly!

Note: Casella will not pick up your Christmas tree with curbside collection.
